Today is just another day
But it's lost without you here with me
Time's become my enemy
That's the prize I have to pay
For fighting with my sanity
I know there's no apology

But I'm here for you
I still care for you
I swear to you
I never meant to hurt you

How can I ever really make it up to you?
Please don't tell me it's too late
I wish I could say I'm sorry
And make it all go away
How can I let you know how I feel about you
Without messing up all the words?
It's too late to say I'm sorry, or to
Take back yesterday

It's never easy to explain
How you feel when you're confronted with
Things you never really did
I hope the joy we had remains
In your memories of who we were
When we could not be happier

Coz I'm here for you
I still care for you
I swear to you
I never meant to hurt you

How can I ever really make it up to you?
Please don't tell me it's too late
I wish I could say I'm sorry
And make it all go away
How can I let you know how I feel about you
Without messing up all the words?
It's too late to say I'm sorry, or to
Take back yesterday

The times we've had brought happiness into my life
The hurt I caused you always cuts me like a knife

How can I ever really make it up to you?
Please don't tell me it's too late
I wish I could say I'm sorry
And make it all go away
How can I let you know how I feel about you
Without messing up all the words?
It's too late to say I'm sorry, or to
Take back yesterday
