Well, I know they say all good things, must come to  
some kind of ending.

We were so damn good, I guess we never stood a  
chance.

Go on and find what you've been missing,  
And when that highway's tired of listening.  
You'll see I'm not that easy to forget.

When a new moon shines through your window,  
Or you hear a sad song on the radio.  
And you don't why, but you just start to cry.  
Or you're driving around on a sunny day,  
And out of nowhere comes a pouring rain.  
And a memory hits you right out of the blue, that's just  
me thinking of you.

I'm not gonna try to stop you, but that doesn't mean I  
don't want to.  
If I know you, you've already made up your mind.  
So, go on and go, if you're really leaving, put a million  
miles between us.  
But you still feel me, like I'm right there at your side.

When a new moon shines through your window,  
Or you hear a sad song on the radio.  
And you don't why, but you just start to cry.  
Or you're driving around on a sunny day,  
And out of nowhere comes a pouring rain.  
And a memory hits you right out of the blue, that's just  
me thinking of you.

And I'm thinking about the roads you're on.  
I'm thinking about you coming home.  
I'm wondering if you got your radio on.

When you find your way to another town, and someone  
tries to lay you down.  
And a feeling hits you right of the blue, that's me  
thinking of you.  
That's just me thinking of you.
