Is it just me or the walls closing in?
I can't be the only one feeling this
So let's tear down brick by brick
Cause it's not helping anyone
And let's get out from under this
Or we'll watch it fall on us all

Can you feel the urgency now
It's time for us to love out loud
Take what we know and live it out and live it out

So am I part of the cure or part of the disease
I think it's time we fall down on our knees
And ask God for clarity
To wash away our memories of the old way
Yeah, and pray that the walls break

Can you feel the urgency now
It's time for us to love out loud
Take what we know and live it out and live it out
This could be the start of a new day
We could be the change
If we take this love and live it out and live it out

We are lost and broken people
Turned our crosses into steeples
Lets take them down and put them on our backs now
Keep your love on track now
Cause this is an emergency
Yeah this is an emergency

Can you feel the urgency now
It's time for us to love out loud
Take what we know and live it out and live it out
This could be the start of a new day
We could be the change
If we take this love and live it out and live it out
