S-O-S my lights on lights on  
S-O-S my lights on lights on

My doubt is the reason  
I turned my eyes and now I'm sinking down  
Deep under the water  
I'm seeing ghosts like shadows dancing around  
Is this you reaching through?

S-O-S my lights on and I need you now  
The water's rising up and I'm going down  
Whoa whoa whoa  
Whoa whoa whoa

It's never gonna be over  
This battle that is raging in my mind  
There's always another torment  
Waiting just beyond the tide  
But you're here and I can see you reaching

S-O-S my lights on and I need you now  
The water's rising up and I'm going down  
Whoa whoa whoa  
Whoa whoa whoa

Here's my signal  
So you can see that I'm in need  
My distress call  
Is SOS and now you've found me  
S-O-S my lights on, lights on  
S-O-S my lights on, lights on  
And now you found me

S-O-S my lights on and I need you now  
The water's rising up and I'm going down  
Whoa whoa whoa  
Whoa whoa whoa  
Whoa whoa whoa  
Whoa whoa whoa  
Whoa whoa whoa
