"Will Gladly Perish"

Visit "[Will Gladly Perish](#)" on MotoLyrics.com

Dragged through the pain once again

From this I'll gladly perish

Dragged through the pain once again

Hopeless from this I'll gladly perish

Meaningless growth in these scars of your fucking
regrets

Torture drowning... Choking beneath the surface of
wrath,

led through the darkness guided by the soothing hate

From this unwanted existence I'll gladly perish

Dragged through the pain once again

From this I'll gladly perish...
