Take a breath again...  
See them walking hand in hand  
What is more depressing than seeing  
someone knowing nothing more than she's so beautiful  
and  
has no problems of her own  
Never thought that I would care  
see him messing up your hair  
I said I'd keep my normal cool and  
never lose my peace of mind  
over stupid things  
she does and says  
but less mess I confess in my sore head  
if I just would leave, but...

Chorus:  
Nothing's gonna change my mood  
Nothing's gonna change my...  
Nothing's gonna change my mood  
Nothing's gonna change my...

Suddenly my patience's gone  
Suddenly I wonder what we won  
Suddenly the fear  
that I locked away  
comes creeping back into  
my dreams again

Chorus

Walking, thinking, see her from behind,  
hoping  
wishing, nothing will be satisfying,  
missing all but...

Chorus x2  
Now she's gone... alright
