(From Next Best Thing OST)

1 - Don't make me love you till I'm ready
Don't make me give you more than my kisses
I need you to go slow and steady
Don't make me love you till I'm ready

Oh, why you wanna rush into my life
Don't you wanna stop and get to know me better
We got all the time in the world tonight
And if we're meant to be we'll be together, hmm
Stay around just slow it down
Till we find out if we got what it takes

Repeat 1

Everything I know about you so far
Makes me believe that you're the one for me
But there's still a lot that's on my mind
And I need time before we go further
Don't you see?
So hold me, hold me
But don't be thinking I don't want you too

Repeat 1 (2x)

It's been a little bit of a mystery
Let's wait till we have a bit of history
Behind ourselves ooh yeah
You don't got to be in such a rush
We can live for the moment if we trust
We'll be right here tomorrow, oh yeah

Don't make me love you, love you
Don't make me give you, uh, uh
I need you to go ooh yeah
Don't make me love you, uh, uh, oh yeah

Repeat 1 till end
