It's been a beautiful day
Can't wait for tomorrow to come
Don't see the problem
We're riding a number one
It just gets easier
It just gets better and better
[Chorus:]
I see no ships
I see no ships
Oh the distractions
On a night like this
Which do you want
Choose one from the list
Are you gonna push the buttons?
Do you know who's lookin out?
[Chorus]
Watcha don't know
It can't hurt you
Do these wonders
They won't vouch for you
[Chorus]
Your really a front
Everything you do hits
The crowd has gathered
And standing at your hips
Don't need no credentials
Or maybe your invincible
[Chorus]
Watcha don't know
It can't hurt you
Endless wonders
Won't defend you
[Chorus]
