Put my trust in you when trusting's hard
Wish that I could just let down my guard
Want to feel closer than I feel
I stop myself before it gets too real

Love can hurt so much it stings
Wish that I could forget everything
Just as I start to fall apart
You pull me back into your arms

I start to breathe
As I kneel at your feet
I start to breathe
As I kneel at your feet

You can't see the other side of me
I keep it locked up safe, hide the key
There's so much deep inside
Like a wild wind screaming through the trees

I start to breathe
As I kneel at your feet
(All I want to do)
I feel complete
As I kneel at your feet

Sometimes I'm mesmerised
By thoughts of love flowing on and on
Don't wait and hesitate
To spend my life with you

(All I want to do)
I start to breathe
As I kneel at your feet
(All I want to do)
I feel complete
As I kneel at your feet

(All I want to do)
I start to breathe
As I kneel at your feet
(All I want to do)

I feel complete I start to breathe
As I kneel at your feet
