"Summer Rain"

Visit "[Summer Rain](#)" on MotoLyrics.com

Whisperin' our goodbyes
Waitin' for a train
I was dancin' with my baby
In the summer rain

I can hear him sayin'
Nothin' will change
Come dance' with me baby
In the summer rain

I remember the rain on our skin
And his kisses hotter than the
Santa Ana winds

Whisperin' our goodbyes
Waitin' for a train
I was dancin' with my baby
In the summer rain

I remember laughin' till we almost cried
There at station that night
I remember lookin' in his eyes

Oh my love, it's you that I dream of
Oh my love, since that day
Somewhere in my heart I'm always
Dancin' with you in the summer rain

Doesn't matter what I do now
Doesn't matter what I say
Somewhere in my heart I'm always
Dancin' with you in the summer rain

I can hear the whistle
Military train
I was dancin' with my baby
In the summer rain

I can here him singin'
Ooh "Love Is Strange"
Come dance with me baby
In the summer rain

I remember the rain pourin' down
And we poured our hearts out
As the train pulled out

I can see my baby
Wavin' from the train
It was last time that I saw him
In the summer rain

Oh my love, it's you that I dream of
Oh my love, since that day
Somewhere in my heart I'm always
Dancin' with you in the summer rain

Doesn't matter what I do now
Doesn't matter what I say
Somewhere in my heart I'm always
Dancin' with you in the summer rain

Every time I see the lightening
Every time I hear the thunder
Every time I close the window
When this happens in the summer

Oh the night is so inviting
I can feel that you are so close
I can feel you when the wind blows
Blows right through my heart

Oh my love, it's you that I dream of
Oh my love, since that day
Somewhere in my heart I'm always
Dancin' with you in the summer rain

Every night and every day now
Though I know you've gone away
Somewhere in my heart I'm always
Dancin' with you in the summer rain

Ooh summer [Incomprehensible] rain
[Incomprehensible]
Ooh summer [Incomprehensible] rain
[Incomprehensible]
Ooh summer [Incomprehensible] rain
[Incomprehensible]
