[Romeo]

Remember this...

[Christina Milian]

Romeo...Christina Milian...

[Romeo]

I remember when, when

Yo, let me turn back the time on Big Ben

Let me tell you about the story from start to end

Release the ink from my ballpoint pen

when it touches the page

it reveals the message that I, send

Are you listenin

let me tell you about my first and only christenin

My eyes all glistening with the innocence of a blank

page

Life is like a blank page

enjoy the beef, the strife, the rage

Wait, let me turn the page

and continue to verbally burn the page

With fire flows that are capable of burnin down the

stage

[Chorus - Romeo and Christina Milian]

Remember when we used to say, ain't always gonna be
this way

from lemonade to alize, now its all gravy

Remember when we used to say, ain't always gonna be
this way

from lemonade to alize, now its all gravy, baby

[Romeo]

Back in my school days, they was the cool days

school was the good old days now

I tend to leave my teachers amazed

they never knew my hard work paved the way

When I talk about back in the days

the hard life, everything will be all gravy

If I play my cards right, thats right

mother said keep close friends tight

Keep frenemies in the distance, in the night

Wait, let me turn the page
and continue to verbally burn the page
With fire flows that are capable of burnin down the
stage

[Chorus - Romeo and Christina Milian]
Remember when we used to say, ain't always gonna be
this way
from lemonade to alize, now its all gravy
Remember when we used to say, ain't always gonna be
this way
from lemonade to alize, now its all gravy, baby

[Christina Milian]
Boy you told me not to worry
Cause its gonna be all gravy
Boy you told me not to worry
Cause its gonna be all gravy
Boy you told me not to worry
Cause its gonna be all gravy
Boy you told me not to worry
Cause its gonna be all gravy baby

[Chorus - Romeo and christina Milian (x2)]
Remember when we used to say, ain't always gonna be
this way
from lemonade to alize, now its all gravy
Remember when we used to say, ain't always gonna be
this way
from lemonade to alize, now its all gravy, baby

Remember when we used to say, ain't always gonna be
this way
from lemonade to alize, now its all gravy
Remember when we used to say, ain't always gonna be
this way
from lemonade to alize, now its all gravy, baby

[Romeo (Christina Milian)]
The more money you make (the more money you make
ohhh)
Its all gravy
The more money you make (the more money you make
ohhh)
Now its all gravy, baby
