If the sun shuts downs
and decided not to shine no more
I would still have you,baby
if we see the last day and they say
we gotta go to war
Ill be fighting with you,
baby

cus i know if im falling,you wont
let me hit the ground
if the boat is sinking,i knoe
you wont let me drown

No matter what anyone could say
This is the only place for me and no one
could ever take that away
Nothing could come between us

If the sun shuts down and decided not
no shine no more(no more)
I would still have you,you,you,you,
you,you,you
If we see the last day and they say
we gotta go to war(to war)
Ill be fighting with you,you,you,
you,you

Because its us against the world,
the world,the world
You know its us against the world,the world,
the world,ohh

Now if im lost at sea 7days im not alone
if im holding you,you,you,you,you
and if it all ends;everybody in the world is gone
ill be standin with you,baby

and if its the last breath i take
ill leave my kiss with you
if there's a wall between us,baby i
knoe ill break through

No matter what anyone could say
this is the only place for me
and no one could ever take that away

nothing could come between us

If the sun shuts down and decided not
no shine no more(no more)
I would still have you,you,you,you,
you,you,you
If we see the last day and they say
we gotta go to war(to war)
Ill be fighting with you,you,you,
you,you
Because its us against the world

Nothing's stronger now than you and i
cus your love is all i got
and this aint never gon' stop no,whoa
Theres no distance here when were apart come on
in from the cold
Lay your head on my shoulder ride like a
soldier ima stay right here

If the sun shuts down and decided not
no shine no more(no more)
I would still have you,you,you,you,
you,you,you
If we see the last day and they say
we gotta go to war(to war)
Ill be fighting with you,you,you,
you,you

Because its us against the world,
the world,the world
You know its us against the world,the world,
the world,ohh

Because its us against the world,
the world,the world
You know its us against the world,the world,
the world,ohh
Because its us against the world,
the world,the world
You know its us against the world,the world,
the world,ohh
