Looking at the starry sky, I wish that you would be
That light shining upon me
How I wonder where you are right now
And if you are with somebody else
I think back on all the times - the times we used to
share
It hurts so deep inside me
I am at the movie cinema by myself
I sit and cry alone

That someone I love right now is far away
So far away, my tears will not stop flowing
Tomorrow, I know there is still hope for me
So I lay myself to sleep and bid you good night

I still, I still, I love you
I'm waiting, waiting forever
I still, I still, I love you
And I'm never gonna stop
HEY!

In the middle of my sleep, a dream makes me relive
The memory of that one day
I recall our conversation
You were not totally honest with me
Even though you held me so, told me you won't let go
I was your one and only
You along with all your promises
Disappear away into the night

I will search for you until the end of time

I will search for you for all of eternity
So I sleep and when I open up my eyes,
I just want to feel your presence in the morning

I lost, I lost, I lost you
You're making, making my music
I lost, I lost, I lost you
Will we never meet again?
NO!!

That someone I love right now is far away
So far away, my tears will not stop flowing
Tomorrow, I know there is still hope for me
So I lay myself to sleep and bid you good night

That someone I love right now is far away
So far away, my tears will not stop flowing
So I sleep and when I open up my eyes,
I just want to feel your presence in the morning

I still, I still, I love you
I'm waiting, waiting forever
I still, I still, I love you
And I'm never gonna stop

I still, I still, I love you
I'm waiting, waiting forever
I still, I still, I love you
And I will see you again
Yeah!!!
