I don't know what you've been told
Been around and now you're back home
You wanna make it up to me
And celebrate our chemistry
And though I like how you work it
I'll make you sweat til you play your cards right
I'm gonna push you til the sun goes down
But can you do it til the morning light
Then tonight is your night
All night - yeah yeah
You're back on the inside
Let me feel how much you've been missing me
All night - yeah yeah
I like what it feels like
But can you make me go de de de deu
I left you out in the cold
With your pants down and no coat
Til you could behave yourself
Teach you not to kiss and tell
And boy I like how you work it
I'll let you know when I feel it's right
I'm gonna push you til the sun goes down
And can you do it til the morning light
Then tonight is your night
Check's in the mail since I been out
Really don't know what you talk about
Forgive me if I did something wrong
I'll step down and let you sing your song
I don't dance like a virgin
When I know what I feel is right
I'm gonna push you til the sun goes down
And we can do it til the morning light
Tonight is your night
All night - yeah yeah
You're back on the inside
Let me feel how much you've been missing me
All night - yeah yeah
I like what it feels like
But can you make me go de de de deu
