What about you
What's going on
Baby that someone that I used to know is gone
What about us
The promise we made
We said that we would never die
We tried and worked it out so tell me why
Am I still hurting inside
What am I gonna say to make it better
It's now or never, do or die
What am I gonna do to make this love last forever
I still believe that what we said is true
What about you?
What about love
'til death do us part
Maybe there's still a place for me inside your heart
What about dreams
Are they still alive
We said that they would never die
We cried and worked it out so tell me why
Are we still living a lie
What am I gonna say to make it better
It's now or never, do or die yeah
What am I gonna do to make this love last forever
I still believe that what we said is true
What about you?
What about you yeah yeah
Why am I hurting inside
Are we still living a lie
What am I gonna say to make it better
It's now or never, do or die
What am I gonna do to make this love last forever
I still believe that what we said is true
If only I could make you feel it too
What about you?
