"Don't Sleep Alone"

Visit "[Don't Sleep Alone](#)" on MotoLyrics.com

you love to sleep against the wall
that way you can't hear at all
you never needed anyone
until you met the girl who runs

you love to hold the girl who runs
but you never needed anyone
shouldn't fall asleep this way
you know what everyone will say

if you don't sleep alone then you know where you'll go

you'd love to hear what they would say
but it doesn't matter anyway
they found you so you left them all
now someone owes someone a call

you'd love to give someone a call
but you think you know them know it all
it's just you and the girl who runs
but you never needed anyone

if you don't sleep alone then you know where you'll go
