I'm leaving for the ferry, that's going to take me home
In just a few more hours now I'll see the light of dawn
And as I cross the water blue and the cold wind seems
to say
You're coming home for christmas, you're coming
home to stay

Surrounded by the water and the outport along the
shore
Home is where my heart is, I'm going home once more
Home to see the waters blue and a old-fashioned
christmas tree
Yes home is where my heart is, it's christmas time
again

Christmas time for everyone, it's christmas time again
Tree lights flashing everywhere and the welcome at the
door
This time of year brings happiness and a ringing in my
ear
It's christmas time for everyone, I'm going home this
year

In just a few more hours I'll see the window pane
And everyone will look to me as if I'm in a picture frame
The picture of the christmas tree and the flashing light
so bright
Yes home is where my heart is, I'm going home tonight

Christmas time for everyone it's christmas time again
Tree lights flashing everywhere and a welcome at my
door
This time of year brings happiness and a ringing in my
ear
It's christmas time for everyone, I'm going home this
year
It's christmas time for everyone, I'm going home this
year
