

Christmas Songs

"Until Santa's Gone"

Visit "[Until Santa's Gone](#)" on MotoLyrics.com

Now I'm only five years old
I've got to do just what I'm told
'cause Santa Claus is gonna be dropping in on me
Now is there something I might have missed
I had quite a few things on my list
I hope he can fit it all under that Christmas tree.
Now I know what he like for a late night snack
For years now it's been bringing him back
Milk and cookies
He'll come and go without a sound again
But how in the world does he get in
Ain't got a chimney
Close my eyes and concentrate
Try to sleep it's getting late
All night long I lie awake
Till Santa's Gone I just can't wait
Now is there something I might have missed
I had quite a few things on my list
I hope he can get it all under that Christmas tree.
Sneak a peek down the hall
I've got to check Now I don't recall

the milk and cookies

I think I'm sure I got it all

Stockings hung a-long the wall

Ain't got a chimney

Close my eyes and concentrate

I gotta sleep now it's getting late

All night long I lie awake

Till Santa's Gone I just can't wait

Just can't wait, just can't wait

Could there be something I might have missed

I had quite a few things on my list

I hope he can fit it all under that Christmas tree.

I hope he can fit it all under my Christmas tree.

spoken:

Let's see, I know he can fit...he can fit the airplane
under there.

He can get the bicycle in there and the...

And the gum ball machine and don't know what he's
gonna do with that horse.
