

Bella Morte **"Awake"**

Visit "[Awake](#)" on MotoLyrics.com

I am the end, I am the past again
I watched a dead world falling down
I walk a path defined by death and fire
To watch this planet burn

I wake to find life and death are one
The dreams of man are realized
I am the seed, I am all evil born
Into a world of lies... die

I am the reason for your death and I am the one to cast
you aside
For I am the future and the past, now
Another season lost to time

I am the reason for your death and I am the one to cast
you aside
For I am the future and the past, now
I'll watch this planet burn
