Long
I've waited been so long here
I've waited for years
For a reason to still carry on
Life
Feels like i've been living
I've been living a lie
And I don't want to face it alone

[chorus]
Time
All this time that I've wasted
All the years that I've had now are gone (They are gone)
Fall again (fall again) to the end of the end
Time
All these hours were wasted
As i wasted away in this place (in this place)
Fall again (fall again) to the end of the end

Lost
I'm lost with no reason
No reason but you
And i know that in time you will go
Hope
I'm living on hope
And i know that my eyes will not see
The new dawn of the day

[chorus X 3]

Of the end
