No more shit, she's finally on her way  
Well, she sees no point for her to stay  
She stole your car well she's on a roll  
And she can't be stopped she's out of control

Know her broken  
When the shit hits the fan  
Know her broken  
Another young girl just skipped town

Filled with hunger with the thrills of life  
No more waiting home sweet and nice  
She's on her way to the big bad city  
With a painted face she sure looks pretty

Know her broken  
When the shit hits the fan  
Know her broken  
Another young girl just skipped town

One, two!

Sick and tired of your lies  
No more lonely nights

You should feel bad or can't you see  
When she reach the city she will meet me  
And I will make her feel so good  
Cosy, warm and understood

Know her broken  
When the shit hits the fan  
Know her broken  
Another young girl just skipped town

Now piss off!!!
