Ease you're feet off in the sea
My darling it's the place
to be
Take your shoes off curl your toes
And I will frame
this moment in time
Troubles come and troubles go
The trouble that we've come to know
Will stay with us till we
get old
Will stay with us till somebody decides to
go
Decides to go
Soberly, without regret, I make
another sandwich
And I fill my face, I know that things
have got to you
But what can I do? Suddenly, without a
warning
On a pale blue morning
You decide your time is
wearing thin
A conscious choice to let yourself go
dangling
Hovering
It's an emergency
There's no more
wait and see
Maybe if I shut my eyes
Your trouble will be
split between us
People come and people go
You're
scouring everybody's face
For some small flicker of the
truth
To what it is that you are going through, my boy
I left you dry
The signs were clear that you were not
going anywhere
Anywhere
Save for a falling
down
Everything's going wrong
Later on, as I walked
home
The plough was showing, and Orion
I could see
the house where you lived
I could see the house where
you gave
All your time and sanity to people
Then you
waited for the people to acknowledge you
They spoke in
turn
But their eyes would pass over you
Over you
Who's
seeing you at all? Who's seeing you at all?
