Well He walked on the water and He raised up the dead
And we teach all the children that He died for our sin
But something's gone wrong this world's in a mess
Jesus is coming and boy is He pissed

He's looked down at the homeless and the rape of the
land
He's seen the preachers and lawyers with blood on
their hands
Politicians beware cause in a loophole you've missed
Jesus is coming and boy is He pissed

In a world gone mad He's watching it all
And the meek shall inherit but the mighty will fall
It's a shame what we've come to and we cannot go
back
And the train bound for glory went down the wrong
track
Soon the love in His heart will be the rage in His fist
Jesus is coming and boy is He pissed

So the whole place can rumble and it floods like a curse
And the hatred and crime you know it only gets worse
These warnings do heed no more and no less
Jesus is coming and boy is He pissed
Jesus is coming and boy is He pissed
