Seymour stein- I've been lonely  
I caught a glimpse of  
someones face  
It was mine and I'd been crying  
Half a world away  
Ticket for a plane  
Record company man  
I won't be coming to dinner  
My thoughts are far away  
I'm working on that day  
North country girl  
I think she's going to stay  
Promises of fame, promises of fortune  
La to new york- san francisco  
back to boston  
Has he ever seen dundee?  
Won't he hire a limousine?  
Seymour send her back to me  
Instrumental  
I heard dinner went well  
You liked chris's jacket  
He reminded you of johnny  
Before he went electronic  
Seymour stein- sorry I missed you  
Have a nice flight home  
It's a good day for flying
