Coffee black, cigarette
Start this day like all the rest
First thing in the morning that I do
Start missing you

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die

Rendezvous in the night
A willing woman to hold me tight
And in the middle of love's embrace
I see your face

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die

El dolor que siempre sentiré
Mi amor, y es que nunca olvidaré
Lagrimas que no se secan
Mi amor por ti no morirá

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die
