When I'm away from you  
I can't stay still  
My boss won't move from the way I feel  
It happens time and time again  
And the circle never ends

When I'm away from you  
It hurts to say  
My senses gone from far away  
I'm up all through the night  
And I can't tell wrong from right

When I'm away from you  
I see great big clouds  
And  
All along the rain  
They seem to be so blue  
Every night I'm missing you

When I'm away from you  
Well the sun don't shine  
The moon don't come  
And the words don't rhyme  
When I'm away from you  
I can't let go, you know, oh you know

It's all the things you do that make life worthwhile  
Like the way you talk and the way you smile  
It's all the things you do  
Keep me hanging on, and you know  
Oh you know

When I'm away from you  
Well the wine won't float  
The tides don't turn  
And the wind'll blow  
I'm up all through the night  
And I can't tell wrong from right

When I'm away from you  
Well the sun don't shine

And the moon don't come  
And the words don't rhyme  
When I'm away from you  
I can't let go, and you know  
Oh you know

It's all the things you do  
That make life worthwhile  
Like the way you talk and the way you smile  
It's all the things you do  
Keep me hanging on and you know  
Oh you know

When I'm away from you  
Well I can't stay still  
My thoughts wont move  
From the way I feel  
It happens time and time again  
And the circle never ends

When I'm away from you  
Well the sun don't shine  
And the moon don't come  
And the words don't rhyme  
When I'm away from you  
I can't let go and you know  
Oh you know

It's all the things you do  
That make life worthwhile  
Like the way you talk and the way you smile  
It's all the things you do  
Keep me hanging on and you know  
Oh you know

When I'm away from you  
Well the sun don't shine  
And the moon don't come  
And the words don't rhyme  
When I'm away from you  
I can't let go and you know  
Oh you know
