The first time, I ever saw you
I simply had to - adore you
We got friendly, you liked me too
We struck together like a pot of glue

You'll never change me [x3]

You once tried to change me to
A smart and fancy, just like you
And now you see, you shouldn't have tried
'Cos rather than change, I would have died

And now you see, you shouldn't have tried
'Cos rather than change, I would have died
I guess that I'm not right for you
So don't go tellin' me what to do
