There's a surfing party
At the shore tonight
Everybody's here

Well, I brought my baby
And she's outta sight
Yes, she disappeared

I see them surfing, twisting
Loving, kissing

Well, I got nobody now
To hold me tight
Where in the world
Is my little girl

Surf party
Come on, come on
Surf party
Come on til dawn

Everybody's grooving and
And the mob is really moving
At the surfing party tonight

Hey

Well, I started searching
Over land and see
Where'd my baby go

And I know for certain
That's she true to me
Cause she told me so

I see them surfing, twisting
Loving, kissing

I see Susie flirting with Stagger Lee
Where in the world is my little
Everybody

Surf party
The moon above
Surf party
Made for love

Everybody's grooving and
And the mob is really moving
At the surfing party tonight

These five boys chasing
After two cool chicks
Look at them cats run
They started racing like?
And it looks like fun

I see them surfing, twisting
Loving, kissing

The whole darn place
Is having lots of kicks
Where in the world
Is my little girl

Surf party
Come on, come on
Surf party
Come on til dawn

Everybody's grooving and
And the mob is really moving
At the surfing party tonight

One more time
Surf party
Come on, come on
Surf party

Everybody's grooving and
And the mob is really moving
At the surfing party tonight

At the surfing party tonight
