[written by chuck girard]

[Chorus]

En... ter... in,  
To the throne room of the father,

En... ter... in,  
To the presence of the king

Come behind the veil, and walk with me,  
In the cool of the day, I'll walk with you.

For where I am is paradise,  
Look into my eyes, look into my eyes  
How I long for you, as you long for me

Won't you take the time to visit for awhile,  
For your precious presence,  
Brings joy to my heart

Oh now my child, come on through

[Chorus]

Come behind the veil, and be my love  
In the secret place, I wait for you,

Be one with me, for I'm in you,  
And you're in me, and we are... one

When you dwell with me, and I dwell with you  
All the pain life will surely have to flee  
For between the wings of the cherubim  
Is that place of peace that place of rest  
Right here with me

[Chorus]
