Hello little Suzie, hello little Suzie
Can I walk home with, can I walk home with you ?
To see will your mother and your father
Let us have a rendezvous

'Cause I want you to be my, be my little loved one
I will be true to you, to you my love, in every way
And in our little rendezvous we'll have
A beautiful wedding day

Then I'll build a spaceship with a heavy payload
We'll go 'bip-bip-bip' way out in the wide open blue
Where we can love one another
In our little rendezvous

We'll take a basket, a short wave radio
A-tunin' on the record shows all over the whole wide
world

And in our little rendezvous there'll be
A happy boy and girl

We'll kiss the moon, my love, go around the world
We'll send a signal back to mom and dad from me and
you
Tell them they'll soon have a grandson
In our little rendezvous

Bip-bip-bip, bip-bip-bip
Bip-bip, bip-bip...
