"Right Off Rampart Street"

Way down south in Louisiana, up under the Delta heat,
child
There's an old boy plays an electric guitar right off
Rampart Street

Sometimes a Go-Go girl come in with him, she be
shakin' out a Mojo beat
That old boy sure pick some old mean guitar right off
Rampart Street

Stays crowded every time he's there, people come
there from near and far
I don't think nobody knows his name, they just know it's
a Go-Go guitar
They just know it's a Go-Go guitar

Way down south in Louisiana, up under the Delta heat,
child
Go see that old boy play his guitar right off Rampart
Street
Right off Rampart Street
