Stop and listen
I hear my baby, callin' my name
Stop and listen
I hear my baby, callin' my name

She don't call too loud
But she calls, ooh, nice and plain

Stop and listen
Before you make a start
Stop and listen
Before you make a start

Because if you fall in love
It may break your heart

I love my baby
I'll tell the world, "I do"
I love you, baby
I'll tell the world, "I do"

And they'll just have to stop and listen
To everything for you
