I spent, the last few years pouring gasoline on every
bridge
Don't waste, your time on me I keep on loosing my self
esteem
Don't try to hold me down
You know we're not the ones
We can't just lose forever
I need to lift this town
I'll feel I'll cherish my time
Forgive me now, but I've been...

... I'm burning these bridges
Killing my mind and burning my memories
So please don't wait for me

Everyday I see my own life unwritten
I won't let anyone see you
First I bridged I bridged you...

... Our last time
Let me start over just keep my name behind
And rewrite all the days both my life with that bed of
mine

Don't try, to hold me down you're the angry one I used
to be
I'm fired from this town
I should down my best, you threw away the key
I feel I will never be the same

I'm leaving, for a long time
Losing myself and hoping to hear my good side
Before I fool this clay mind

Everyday I see my own life unwritten
I won't let anyone see you
First I bridged I bridged you...

... Our last time
Let me start over just keep my name behind
And rewrite all the days both my life with that bed of

mine, it's mine, tonight
And I know cherish you lie, know it's my time

Our times running fast the best is yet to come
Don't stick to the past, 'cause nobody moves on (x3)

Times running fast but the best is yet to come
Don't stick to the past, 'cause nobody moves on
