Everything is not defined in just a word!

With an empty head,
Nothing can stop the fire in your eyes,
This is not about whispering or breathing.
It's more than you, you can ever imagine.
Everything is not defined in a single word,
And you, (make your move)
You keep your hands up,
This is what makes us strong (what makes us strong)
In this present moment nothing can stop us.

We're still fighting hurricanes to horizons,
The line that divides up all directions,
Keeps leading us to infinity on the oceans,
We are the messengers of a lost devotion.

For every mind built in a second
I see only disaster and that's when I realize
All the anger of the world.
Unite!
For every mouth shut let another be free.
Tonight, we are about to start a new fight,
It's more than you have ever heard of.

I heard your voice,
In front of the ocean,
In the distance,
Under the deepest light.
Break the time,
We made something pure,
Something more.
Hearts have grown colder.

We won't let you down!
Won't let you!
We will fight them now!
We'll fight them now!
We're taking it back!
Taking it back!

We're still fighting hurricanes to horizons,

The line that divides up all directions,
Keeps leading us to infinity on the oceans,
We are the messengers of a lost devotion.

We just want to belong to the ocean and live free.
For every mind built in a second
I see only disaster and that's when I realize
All the despair of the world.

We won't let you down!
Won't let you!
We will fight them now!
We'll fight them now!
