### "Pretty Poison"

I wonder if you dream the dreams I dream  
I close my eyes and slip into this scene  
Following vibrations in the air  
I know I should know better, but I go there

Chorus:

Gravity pulls me into your ocean  
Shadow on roses black and bliss  
And I imagine a pretty poison's in your kiss

Taste it, see it, smell it, like that rose  
How do you resist do you suppose?  
I'm only drawn to where water flows

(chorus)

Pretty poison... you're my poison

(chorus)
