Tell me brother tell me
Where have you been to?
You know you've been gone a while
And I prayed you'd make it through
If I never said it, you can come home any time
And I hope you know my friend that your place is next
to mine
Take my hand and lift it up
And together we will stand

And they'll know us by our love
Brother brother

Forgive me my friend
If I don't hear you right
I won't always understand
The darkness of your night
But if my love for you isn't bigger than your fears
The day that you come back home, I will gladly say
through tears
