Structure of defiance, symbolic rage  
Humanities demise, destructive rampage

Death tolls riding beyond all control  
The world is taken by force  
Casting it's shadow of hate  
Metallic king, death machine!

Indestructible force, the bringer of doom  
Iron strikes the earth, cities are consumed

Mountainous colossal war machine  
Living engine of destruction  
Panic stricken victims flee  
Retaliation unavailing

Black gas fills the air  
Air raid sirens cry  
Searing death ray vision  
Fire rapes the sky
