"Metal Never Bends"

Visit "[Metal Never Bends](#)" on MotoLyrics.com

Years have past
Metal will last
Forever growing strong
As we crush the cowards
Destroying the trends
Killing the false ones dead
Headbanging 'til the end
Metal never bends
Hail to our friends
Drinking until the end
Playing Metal from our hearts
Hitting the stage in a
Death Metal rage
Metal and leather bound together
The war has begun
Axe swung low, fists held high
The battle has been won
