With burning eyes we shall defy  
Draining your fucking lives  
Crush those who stand in our way  
You're dead now, too late to pray

Time is now to rage war

You think you're deadly  
You say you're true  
We just shit all over you  
Time is now your eyes to see  
The face of death - reality

Time is now to rage war

Time is now - take your stand  
To rage war - across this land

Maim to please, we shall destroy  
Taste the Cianide and fucking die  
Final straw you shall be dealt  
Piss on you, watch you melt

Time is now to rage war
