"Throne Of Blood"

Live by the sword die by my hand
Justice is swift, conqueror of men
Feel my wrath all of your pain
Feast your eyes on the hell which I have made

I am the way, trail of blood
A wolf among sheep, slay those who are weak
Living this way, never shall fail
Dark legacy, suffer unto me

Sanctify my wrath
On a throne of blood I rule
Unchallenged, torn by hate
On a throne of blood I rule

Kingdom of doom - tyrant's reign
Obey my commands - intimidation
Kneel before me - my enemies
Surrender or die - eliminate all who oppose the law!
