Can't stop feelin' guilty  
Don't hate me  
The agony hurts badly  
Don't hate me  
Feel the same - don't throw away  
Just feel the same  
Fire and run  
You've got to believe that it's burning  
But sometimes much too strong  
Fire and run  
It wasn't conceived or revolting  
Do I wish, it was undone  
Fire and run  
Occasion comes along but  
Don't hate me  
And I've got to go through  
Don't hate me  
I take the blame - don't go away  
It's all a shame  
Just  
Fire and run  
You've got to believe  
That it's burning  
But sometimes much too strong  
Fire and run  
It wasn't conceived or revolting  
Do I wish it was undone  
Fire and run  
Fire and run  
It's given me pain, it is growing now  
Who did I do wrong  
Fire and run  
A second to split in two words  
Will never come along  
Fire and run
