Where have you been  
Where are you goin' astray  
Why don't you give somebody else a bad name  
I thought that we two always wanted the same  
It doesn't matter if she spends a little time with you  
Baby can you hear me - don't you hear me  
Baby can you hear me - don't you hear me  
Where do you go  
Where are you runnin' to play  
Why do you hide and cover all that has been  
Will this be just another bad movie scene  
Now do you really spend that little bit of time with her  
Baby can you hear me - don't you hear me  
Baby can you hear me - don't you hear me
