Come into my heart
Can you feel my desperation deep inside
Hehehe
Come into my heart
Can you feel my desperation deep inside
Come into my soul
Can you see me - here I'm far away from you
See ya - be sensible and let me go
See ya - you'll stay my soulmate althoug
You should say good bye
For now say good bye
You know these rainy days of our life
You can make it if you try
You know I will be right by your side
One day we will meet in another life
Come into my heart
I'm searchin' you so desperatly forever more
Come into my soul
So must I put up with this cruel infinity
See ya - be sensible and let me go
See ya - you'll stay my soulmate althoug
You should say good bye
For now say good bye
You know these rainy days of our life
You can make it if you try
You know I will be right by your side
One day we will meet in another life
