### "Fit Of Love"

Yeah, yeah

I was colder than december  
Never thought that you would enter my life that day  
Love so gentle and so tender  
And I really don't remember feeling this way

I owe it all to you  
I feel so new  
Like I can't lose  
And everybody knows 'cause it just shows  
I wear a glow  
I like the fit of love

Up here with you is where I wanna be  
And I'm not coming down  
I like how your love just fits on me  
Like it's gently wrapped around  
I'm covered from my head to my feet  
With everything it does  
It stays on me because (oh, yeah)  
I like the fit of love

You're the reason and the meaning  
For the new things I believe in  
You make me smile (yeah...)  
And I wouldn't change nothing  
I won't wish you could've rushed it  
Don't wanna change the way it is (oh, no)

I'm in a better place  
Those hurtful days are gone away  
And everybody sees that you love me  
And I'm complete  
I like the fit of love

Up here with you is where I wanna be  
And I'm not coming down  
I like how your love just fits on me  
Like it's gently wrapped around

I'm covered from my head to my feet  
With everything it does  
It stays on me because  
I like the fit of love

Oh, when you was new with me  
One night like I used to be  
Like you're still not for me (yeah...) ??  
Don't know how to take me now  
And it ain't easy to break me down  
'cause I'm wearing love on me  
And it fits too deep  
I like the fit of love

Up here with you is where I wanna be  
And I'm not coming down,  
U like how your love just fits on me  
Like it's gently wrapped around  
I'm covered from my head to my feet  
With everything it does  
It stays on me because...  
I like the fit of love

Up here with you is where I wanna be  
And I'm not coming down,  
I like how your love just fits on me  
Like it's gently wrapped around  
I'm covered from my head to my feet  
With everything it does  
It stays on me because...  
I like the fit of love
