I'm so unsulated baby come (confuse)

Then let u babe no wrong like yesterday ah  
U slept enough and now it seems like u will give ya  
Today is Rock'n'Roll, tomorrow is the blues  
We neva say "I love ya" That a wrong from heding u

Gave u, give me as I am baby  
Somethin' , show I need some stability  
Love me, or u don't love me baby  
Are u happy, or are u unhappy

U just like flip and switches  
Uaa Lights on (Lights on) Lights on (Lights on)  
Cuz we got living like they stars get in future  
Lights on (Lights on) Lights on (Lights on)  
And I'm getting so confused  
Cuz u don't love what u want love to (Baby)  
U just like flip and switches  
Uaa Lights on (Lights on) Lights on (Lights on)

Can I get that green, Can we go (let's go, let's go)  
Cuz u so haden, u so got (so got)  
I can tell ya by lookin' ur eyes that u don't know (don't  
know)  
Who u streamin' in things and boy that's own

Today kiss my face and say that is nothin'  
But I already know tomorrow u will switch a nogie  
U say u happy now, that a wrong boy, not so much  
I'm so confused, that wanna get in self

Gave u, give me as I am baby

Somethin' , show I need some stability  
Love me, or u don't love me baby  
Are u happy, or are u unhappy

U just like flip and switches  
Uaa Lights on (Lights on) Lights on (Lights on)  
Cuz we got living like they stars get in future  
Lights on (Lights on) Lights on (Lights on)  
And I'm getting so confused  
Cuz u don't love what u want love to (Baby)  
U just like flip and switches  
Uaa Lights on (Lights on) Lights on (Lights on)

I wanna say I love u, but it's fact a right thing to do  
(so being to get mad too boy)  
I wanna see u happy, but I can't seem make u happy  
U so wishten wash, driving me crazy

U just like flip and switches  
Uaa Lights on (Lights on) Lights on (Lights on)  
Cuz we got living like they stars get in future  
Lights on (Lights on) Lights on (Lights on)  
And I'm getting so confused  
Cuz u don't love what u want love to (Baby)  
U just like flip and switches  
Uaa Lights on (Lights on) Lights on (Lights on)
