How many ways you change your mind?
Whose life we left behind
Won't you let me feel the same
Selfishly you shared the blame

Why don't you know?
Why don't you see?
Don't you believe?
You believed in me
I'm watching you die
With all of the lies I lend you

Your my faith
Your all I see
You my salvation
Your my disease
Your all I believe
My Destination

Stop the car and let me out
I'll walk alone for now
Look ahead and look behind
It's too late to change your mind

Why don't you know?
Why don't you see?
Don't you believe?
You believed in me
I'm watching you die
With all of the lies I lend you

Your my faith
Your all I see
You my salvation
Your my disease
Your all I believe
My Destination

Your my disease
