UGLY!!!

UGLY!!!

I couldn't change for a long time

That retribution is sweet as wine

\*Chorus\*

Please set me free

I want to be beautiful

So beautiful like you

So hard to believe

That your so beautiful

And I'm so...

All these indesicions

Blind me of my reasons

Hide me from my feelings

Never knowing why

Was it the collision

That took away my vision

Never knowing nothing

Is soothing sometimes

What you can't see

If we fall behind

And it's black as the metal and the metal is cold

Black as the metal and the metal is cold

Black as the metal and the metal is cold

BLACK AS THE METAL AND THE METAL IS

COLD!!!!!!!!!!!!!!

\*Chorus\*

Please Set me free

I want to be beautiful

So beautiful like you

So hard to believe

That your so beautiful

And I'm so...

All these indesicions

Blind me of reasons

Hide me from my feelings

Never knowing why

Was it the collision

That took away my feelings

Never knowing why  
Was it the collision  
That took away my vision  
Never knowing why  
Is soothing sometimes

RUN!!!!  
RUN!!!!  
RUN!!!!

Was it added frustration  
The speculation  
Self motive  
Self mutilation  
I've got a purification  
Cause to isolation  
I guess it's all intimidation  
So ready to test the solution

\*Chorus\*

Please set me free  
I want to be beautiful  
So beautiful like you  
So hard to believe  
That your so beautiful  
And I'm so...  
All these indesicions  
Blind me of my reasons  
Hide me from my feelings  
Never knowing why  
Was it the collision  
That took away my vision  
Never knowing why  
Is soothing sometimes

All these indesions  
Blind me of my reasons  
Hide me from my feelings  
Never knowing why  
Was it the collision  
That took away my vision  
Never knowing why  
Is soothing sometimes
