Wipe away the summer air  
You don't wanna see  
That's you in that Photograph from 1973  
And you don't even know me

God only Knows I wanna be  
The other side of misery  
Gimme a plate of Fluorescein  
I'm gonna paint an ugly scene  
All of the things I wanna say  
Can't get a word out anyway  
Falling away after today  
Nothing to lose so come what may

Don't wake me

You got away from me somehow  
And all we tried to be  
Everything is different now  
The mind's eye fails to see  
And all we know is TV
