Not a lot right now makes sense to me  
And it won't go quietly  
Not a lot right now makes sense to me  
And it won't sit patiently  
Gonna chase my dreams and catch up to them  
Gonna find you somehow, someday, somewhere,  
someday

(Chorus)

First day of the rest of our lives, I miss you already  
Last time I see that look in your eyes, I miss you  
already (2x)

I don't wanna spend the rest of my life alone  
Where's life taking me?  
Don't wanna spend the rest of my life alone  
Always traveling  
Gonna chase my dreams and catch up to them  
Gonna find you somehow, someday, somewhere,  
someday

(Chorus 2x)

I wanna love my job  
I wanna love my life  
But most of all, I wanna fall in love

(Chorus 4x)
