American Boy ima tell you how it is
Not caring what others think about this
American Boy ima tell you how I feel
Cuz in my heart I'm an American and that can't peel

(Verse)

Can't live without the red white and blue
Without freedom than you couldn't be you
You be a slave working or taking orders
Than there wouldn't be no more people jumping our
borders
Take a second to think about what you have
Cuz you could be homeless caring a duffle bag
Yeah our country is going down the Drain
But I'm still standing up the great USA

Whatever happened to famous people like Lewis and
Clerk, Jefferson
And others bringing this country back together again
Or like the famous writings and the famous papers
For example the Declaration of Independence and our
Constitution
And the great American songs like the National Anthem
A Pledge of Allegiance and American the Beautiful
Yeah these days kids don't even sing them anymore
when they go to school

American Boy ima tell you how it is
Not caring what others think about this
American Boy ima tell you how I feel
Cuz in my heart I'm an American and that can't peel
American Boy ima tell you how it is
American Boy ima tell you how I feel
I'm not caring what others think about this
Cuz in my heart I'm an American and that can't peel
American Boy ima tell you how it is
Not caring what others think about this
American Boy ima tell you how I feel
Cuz in my heart I'm an American and that can't peel

(Verse)

There's people out there working hard, Barely living a
substantial life
But there's people out there that don't do shit our
country but have many kids and wife's
The hard working citizens of this country now have to
try harder just to get help
But others that do nothing that are worthless can get
anything when it's just dealt
Not the one to judge or the one to hate
It's just sucks what this place has come to up to date
Yeah our soldiers in war in Iraq over there
But the real war is over here
Why do you say here I'll give you a reason
Everything is going down the sink
Just sit back just sit back and think why everything is
going down the sink
(Do you know yet? Here I'll tell you right now LISTEN)

We have people dying from diseases
Murders, Stealers and the crazy people
Illegal's, run-aways, deaths and kidnaps
Homeless, divorces, poisons, drowning
Fires, floods, bridges that are breaking
Under the age of ten kids that dating
Girls having babies at the age of twelve and up
Kids dropping out of school not giving a fuck

But hey ima an American and I'll live and be happy
Cuz I can wake up and do what I want
Knowing that I have soldiers fighting for us
And knowing that they the ones keeping it this way
